What Is Bitmarket token?

Bitmarket token is a Multi blockchain decentralized cryptocurrency platform of the modern world, which is a sovereign blockchain. Bitmarket network is designed as a high-performance to provide many services in 1 platform. It is a decentralized p2p shop which provides multiple cryptocurrency option for their customer so they can buy in their desired token. Bitmarket as the first token to provide a decentralized shopping platform to customers. It provides the world with a decentralized shopping platform, which can share profits with holders of Bitmarket tokens and is not subject to government policies.

Bitmarket will leverage blockchain technology to ensure that transactions are secure and safe for all participants. This technology revolves around decentralized data storage that can record transactions between parties in a efficient, trustless, and immutable manner. With Bitmarket tokens, users will be able to spend it across the Bitmarket ecosystem. The Bitmarket Network aims to allow acceptance of Bitmarket token as a payment method.

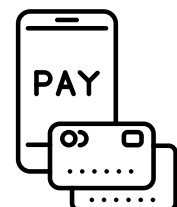

Key Features:

Swap

Wallet

Payment Gateway

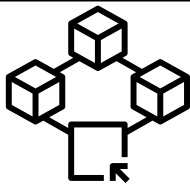

What Is Bitmarket token?

Bitmarket network will be a whole ecosystem that will provide features like staking and swapping. Bitmarket network will develop its own Payment system will be used on decentralized platform to buy or stake token. Staking will allow users to earn yield in a form of Bitmarket token. We are revolutionizing the market with a more open, accessible, and fair global financial system with decentralized-powered crypto. Unlike, other conventional platforms, our wallet allows lenders or investors to generate more value to user's crypto-assets.

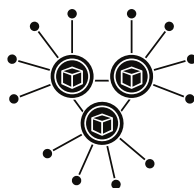

Bitmarket is complete all in one ecosystem that contains the staking, NFT marketplace, and swapping facility under an umbrella. Bitmarket also offering exchange services. Bitmarket used blockchain technology to make its NFT marketplace Unique. Bitmarket is also going to launch their crypto casino and their own debit card to make transaction more easy and accessible to everyone.

Its social commitments, ledger accountability, blockchain, and its development are so significantly planned that it indeed has optimum possibilities that this cryptocurrency's future and opportunities will be sky-high. It has been made Professional, accountable, effective, reverend, and technologically sound.

Key Features:

Multi Blockchain
Supported

Decentralized

Staking

MISSION

Our mission is to "Bitmarket to New Heights" by offering customers an innovative, user-friendly, one-stop shop to find everything they need to buy, but to research and make a more precised decision, utilizing a platform with a decentralized blockchain, to give every person in the world an equal chance to manage and improve their financial security.

Our Mission is to

- Provide every Customer with simple and effective ways to buy physical & digital assets.
- Decrease volatility and increase positive price pressure in digital asset staking.
- Operate as a community-focused and community-driven digital asset, fully decentralized in every sense of the word.
- Our mission is to pave the growth of decentralized p2p marketplace adoption - this happens when the users feel confident to explore the blockchain are supported to build the future of decentralization.

VISION

We aspire to put “cryptocurrency with p2p shop” . We envision a world where people can buy each and everything from pen to home with their desired currency and wealth-building strategies that were once only accessible to affluent individuals become available to everyone, transferring the power over our financial systems back to the people. Bitmarket network is going to create a revolutionary ecosystem to bring more people into digital assets, helping to earn money by sharing their content along with maintaining their privacy, security, power, and autonomy.

We strive to create an ecosystem based on sound monetary policies, with a sound and solid decentralized foundation, that should be expected with the Bitmarket token digital asset.

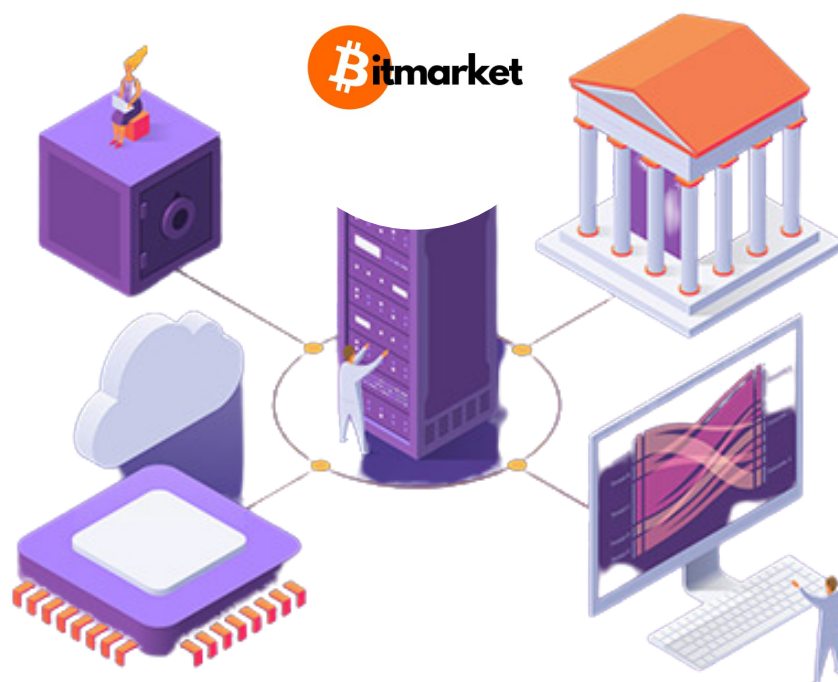

BITMARKET STAKING

Bitmarket works on the Binance platform, which is eco-friendly, working on a proof of stake. In addition to being the largest crypto exchange by trading volume, it offers exemplary staking services. Bitmarket ensures users' funds are safe by leveraging effective security measures and providing Secure Asset Fund for Users (SAFU). Our staking method at the time of writing is arguably one of the safest and eco-friendliest methods (for cryptocurrency) to earn passive income. The platform stores all staked tokens using a secure wallet and a double-checking system.

Bitmarket staking is quickly becoming a practice of gaining passive income by merely storing or locking funds in a wallet as more individuals, including institutional investors understand the crypto market's lucrativeness.

Since staking cryptocurrencies necessitates certain technological crypto know-how and compliance criteria, Bitmarket staking platforms are useful for allowing investors, including those lacking technical knowledge of cryptocurrencies, to stake proof of stake (PoS) tokens and receive rewards. The staking network lends you their professional skills and authenticates stakes on your behalf for a small percentage of your staking prizes, allowing you to receive submissive profits. Staking platforms that enable investors to collect staking incentives have sprung up in response to the rapid growth in crypto staking. If you're interested in earning a passive income by staking, this is the place to be.

STAKING

Benefits of staking

Staking is advantageous in cryptocurrency as it generates rewards by staking the token on any exchange and generate passive income. When an investor stake a token and staking the pool, it is the easiest method to do, in a decentralized world. There is very sufficient energy consumption and stumpy probabilities of risks while staking than any crypto mining. Bitmarket is a here for you.

There are a few quantifiable benefits of Staking token with Bitmarket :

NO HARDWARE IS REQUIRED

Unlike proof of work, there is no need of a specific equipment or hardware for crypto staking. Proof of stake works with no equipment requirements. The only requirement is to hold the token for an interval of time by the stakers on any exchange

PASSIVE INCOME

Stake holders earn incentives by staking and controlling their digital wealth. Passive income for the beneficiary is the reward of staking.

SCALABILITY

In the Blockchain world, scalability is a concept that is often used. It refers to a computational process's potential to be used or generated in a variability of ways. Proof of stake protocols, as shown by Bitmarket higher transaction outputs and lower fees, make for greater scalability.

ECO-FRIENDLIER

As Proof of stake blockchains are less energy-consumers, they are more environment friendly. Thus, they have a lower carbon footprint and have little or no environmental effects.

MORE COST-EFFECTIVE

Proof of stake blockchains are always inexpensive and less energy-consuming platforms with no particular and expensive hardware requirements. Unlike proof of work chains, PoS is more cost-effective and eco-friendly. So, the stakers can earn more passive income by using Bitmarket.

HIGHLY SECURED WITH THE HELP OF BITMARKET CONTRACT

The biggest issue in the modern world is security and privacy, and Bitmarket provides a swift and stable portal that is backed by the Bitmarket contract, making him superior to others. Bitmarket contract is offering a highly secure and fast platform to the users for staking crypto.

BITMARKET SWAP

With Bitmarket, you can exchange crypto in Bitmarket platform which has its own integrated swapping system. Swapping from your Private Key Wallet provides you with the benefits of non-custodial, on-chain trade settlement. Swapping from your Bitmarket account provides faster settlement and additional benefits.

There are many great reasons our Wallet users love using Swap.

- Quickly swap into an asset you believe will grow.
- Move out of a volatile asset into one of your desired tokens.
- Hedge against real-world events.
- Bitmarket platforms are integrated into the top cryptocurrency trading exchanges in the world, this allows users to search and select the best rates for the transaction. An additional benefit is that some crypto swap services do not require users to create an account.

Bitmarket SWAP

BITMARKET NFT

Bitmarket NFT is the vital part of our ecosystem dealing with NFT'S. Bitmarket Non-fungible tokens (NFTs) are unique, non-interchangeable assets, minted on-chain. These tokens can be linked to anything from digital Bitmarket. The core attributes of Bitmarket NFTs give them unique value and categorically separate them from other types of assets. These properties include being verifiably unique and indivisible. The transparent nature of the underlying code means that the scarcity and ownership of any given token are evident without the need for a trusted intermediary. We view the emergence of NFTs as a continuation of a paradigm shift from centralized to decentralized systems. This framework is now unlocking fresh business models for the creators of digital and physical collectibles. Bitmarket is a widely known NFT project. The underlying token for each Bitmarket encodes a unique genome that defines its appearance, traits, and hereditary lineage. Bitmarket cannot be replicated and cannot be transferred without the user's permission.

Bitmarket NFT

Transparency, authentication, ownership, provenance, copyright, and forgery have all been issues in the NFT industry for a long time. Moreover, the industry has historically been restricted to the elite who can manage to invest millions of dollars on a single piece of art. On the other hand, is unquestionably intended to be enjoyed by everyone, and it can transcend all social and economic barriers.

Fortunately, with our designed ecosystem, the obstacles outlined above are nearly resolved. And, as of today, the industry has created and effectively deployed amazing and sophisticated pieces of art. We are ready for transformation in the way NFT is purchased, marketed, sponsored, loved, and even made.

NON-FINGIBLE TOKEN

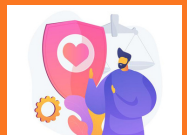

1- Easily Transferable:

The transfers of NFTs are centered on their uniqueness and indivisibility, thus the tokens are sold and purchased on a unique market.

2- Trustworthy:

NFTs are based on blockchain technologies. Consequently, you must be confident that your NFT is right, as counterfeiting a decentralized and permanent record is difficult.

3- Maintain Ownership Rights:

This is a network of open platforms the size of an NFT, with no buyer having the ability to modify the data later.

Bitmarket Gaming and Betting

We are going to launch our gaming platform as well which includes betting games to provide opportunity to everyone to gain exposure to digital assets.

Common problems experienced by the players

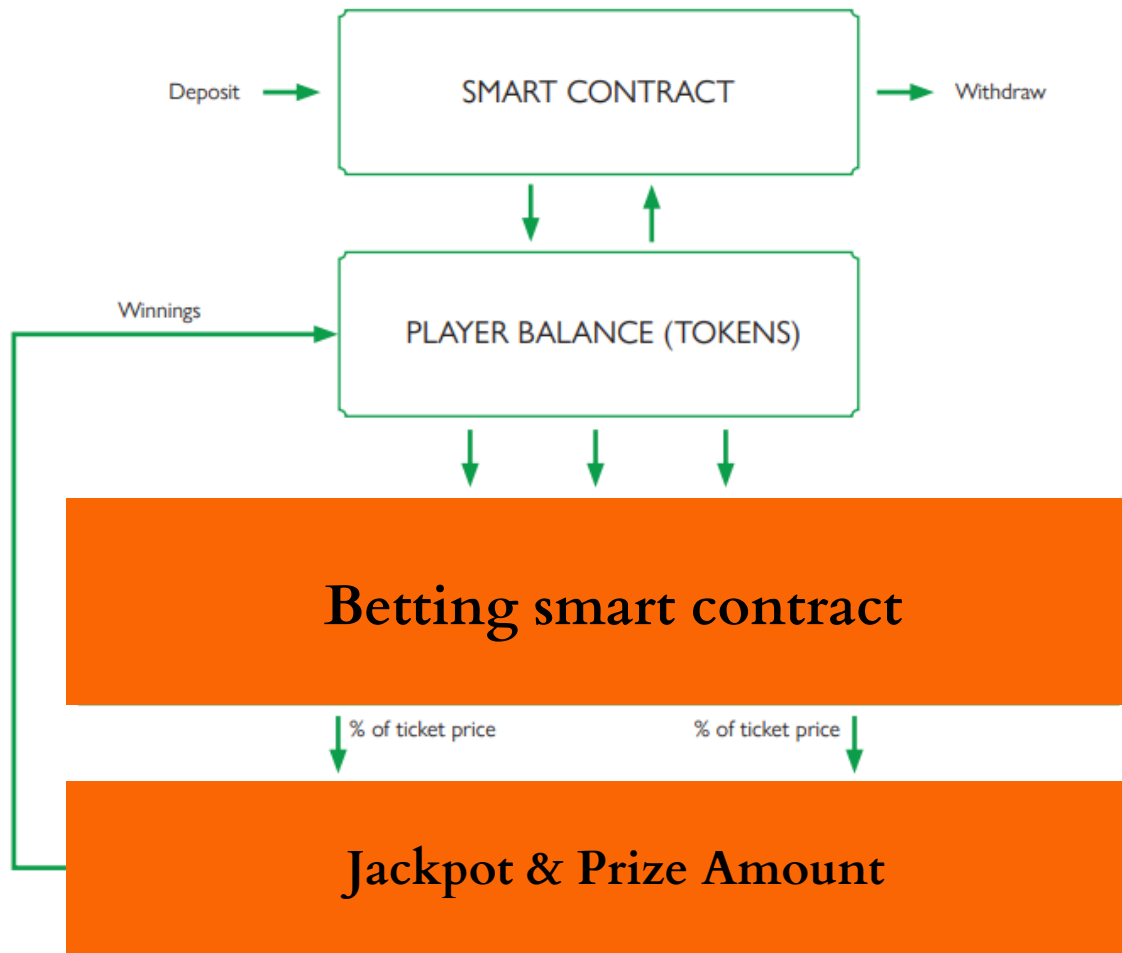

- After transferring the money to the game account, it is not credited or it is stolen
- After withdrawing the money from the deposit, it has not been credited to the card
- The player has not received the promised bonuses
- The player is not able to enter his game account
- Hidden fees: casinos charge a fee for the gain withdrawal
- The player can withdraw funds only on a certain day

Some of the existing issues in the market of online gambling** that Bitmarket protocol can solve**

- Risk of fraud on behalf of online casinos
- Inability to check the result of the draw
- High and hidden fees
- High entry level for the game developers
- High costs of running an online casino
- Operations overheads such as integrating payment systems & user account balance management

How our Gaming system works?

This is the overview of how our system works .

For all the draws, our token Bitmarket is used, through which all the interaction with the player's personal balance is conducted. Each game is based on a separate smart contract. The winning is accumulated in Bitmarket tokens and stored on a separate account managed by smart contracts. In the case of winning, its equivalent in Bitmarket tokens is automatically transferred to the player's balance and becomes available for withdrawal (in Bitmarket tokens only).

Bitmarket Lending

Bitmarket lends money to borrowers and a specific amount of interest is charged which the lender will get as incentive. To be precise, lenders earn on interest and borrowers can get loans quickly and anonymously without interacting directly.

Bitmarket Lending is more suitable for users who prefer low-risk investments and pursue stable returns. It means that Lending is a perfect match for holders who can keep token and earn extra profit.

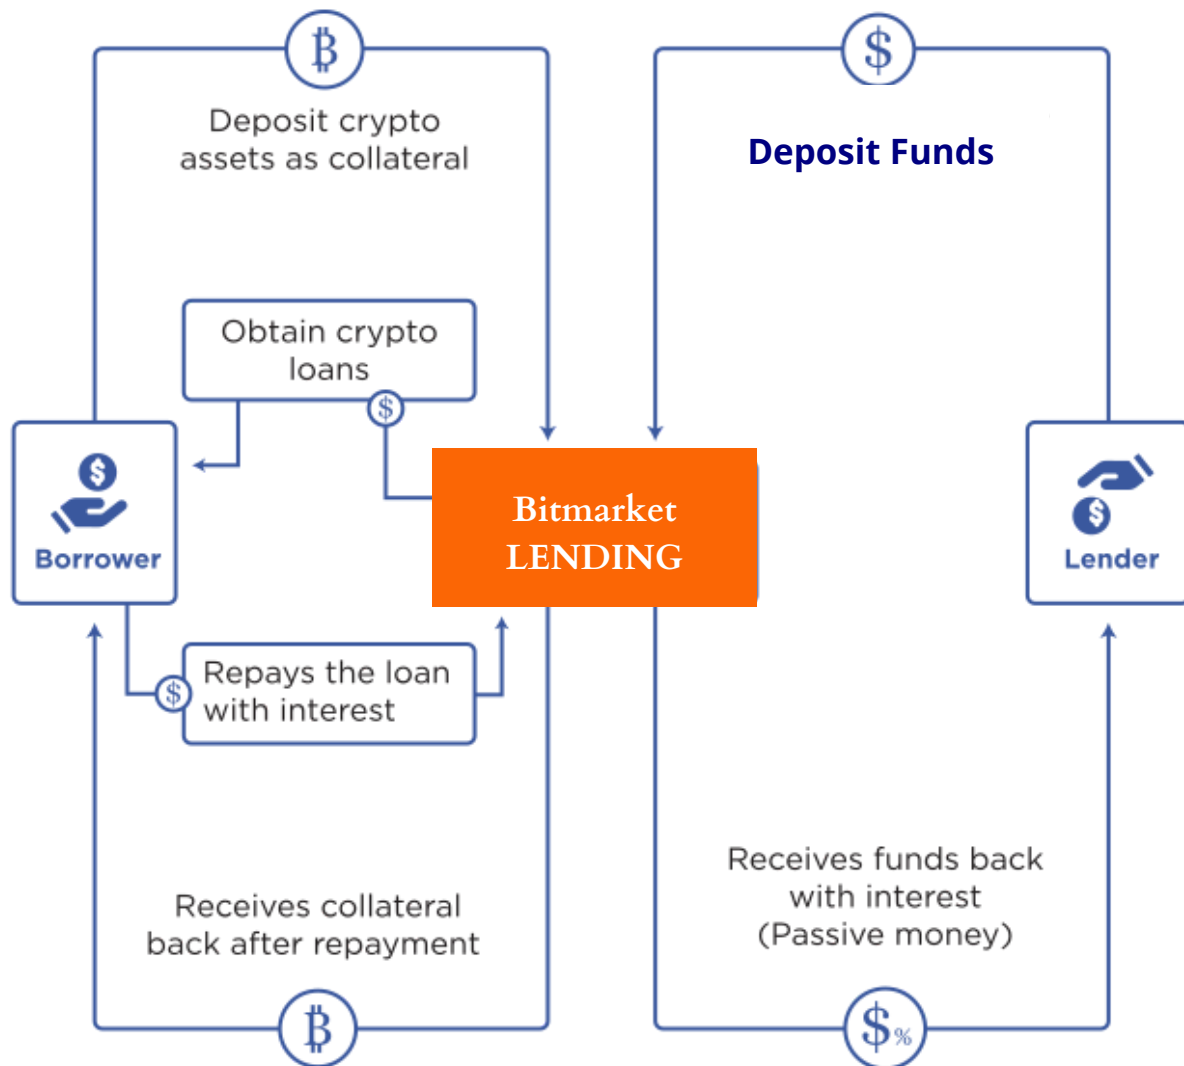

Furthermore, it is user-friendly to new crypto investors, who can lend crypto assets to earn passive income with several simple clicks. We all know that all investment comes with risks, but relatively Bitmarket Crypto Lending is a low-risk product.

You may worry, what if the guy who borrows my crypto refuses to pay it back? Here's the thing, borrowing on the platform requires collateral, which ensures that the lenders can get the principal and the interest in full.

The users of decentralized lending platforms can apply for a loan of any size without having to confirm their identity to a third party. Loans can be supported in cryptocurrency.

How Bitmarket Lending/ Borrowing works?

Bitmarket Payment System

Bitmarket supports multi-currency payment system that offers its users the ability to shop, spend, deposit, and withdrawal to multiple currencies via industry-standard sort code and account number. The Platform is powered by its same name currency “Bitmarket Token”, which is traded on multiply crypto exchanges for easy access. Bitmarket Platform will be used for products and services including buying tickets, online shipping, we also have payment gateway system which will be used by services or buying products on their platform such as buying of luxury watches to the real estate and cars etc

Benefits

- Faster and cheaper checkouts.
- Multi-currency payment options.
- Secure with security built-in mind.

Bitmarket Debit Card

Instantly load your card with the Bitmarket Token, Fund it, Spend It, Anytime, anywhere. Truly borderless cards let individuals make online or in-person purchases or withdraw cash from ATMs, even if the vendors and ATMs don't accept cryptocurrency because it is supported by master card system. Instead of exchanging token into local currencies, cardholders preload their cards with a set amount of cryptocurrency which is then automatically converted at the time of purchase. Its Bitmarket Card lets cardholders spend their cryptocurrency anywhere Visa is accepted. Its support for multiple currencies, easy currency conversion, and top-notch security is why we chose it as the best bitcoin Digital card overall.

Benefits

- Can be used everywhere in digital world
- Pay using multiple cryptocurrency wallets
- Multiple security features

Bitmarket Crypto Casino

Bitmarket will also going to launch its own crypto casino where the transaction will be done in Bitmarket Token.

Common problems experienced by the players in casino

- After transferring the money to the game account, it is not credited or it is stolen
- After withdrawing the money from the deposit, it has not been credited to the card
- The player has not received the promised bonuses
- The player is not able to enter his game account
- Hidden fees: casinos charge a fee for the gain withdrawal
- The player can withdraw funds only on a certain day

Some of the existing issues in the market of online gambling** that Bitmarket protocol can solve**

- Risk of fraud on behalf of online casinos
- Inability to check the result of the draw
- High and hidden fees
- High entry level for the game developers
- High costs of running an online casino
- Operations overheads such as integrating payment systems & user account balance management

Advantages

Transparency & immutability

With the Bitmarket, each time exchange of tokens is recorded on the Binance blockchain, an audit trail is present to trace where they came token from. This can not only help improve security and prevent fraud in exchange-related businesses, but it can also help verify the authenticity of the traded assets.

Lower Fees

The fees associated with Bitmarket transactions are far less than those associated with debit, credit cards as well as wire transfers, and BACS payment.

Transaction traceability

Bitmarket is far more secure than other record-keeping systems because each new transaction is encrypted and linked to the previous transaction.

Bitmarket is formed by a complicated string of mathematical numbers and is impossible to be altered This immutable and incorruptible nature of Bitmarket makes it safe from falsified information and hacks once formed.

Ease to use

Ease of use is the reason why Bitmarket has no value. All you need is a smart device, an internet connection and instantly you become your own payments and money transfers.

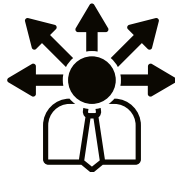

Features Of Bitmarket

Wealth Reimagined

We believe in bridging the relationship between what investors need and the distance they're from it. So we've entered the blockchain network to offer better opportunities starting with the Bitmarket token.

Imagine Possibilities

We expand possibilities and challenge the status quo. Tokens that pay dividends and gives you better governance and control. Vote what you think should happen next.

Less Risk, More Reward

Bitmarket - Is The one of Highest BNB Reflection Token! | Earn Staking rewards By staking ! Claiming BNB isn't needed, as it is automatically sent to your wallet.

Redefining Investment Culture

The traditional way of investing involves detailed analytics, pattern recognition, and constant risk tolerance. Bitmarket TOKEN digital removes the need for critical thinking and having to make sophisticated decisions. Instead, we improve upon our ideas with a hybrid approach to Innovation.

Expect opportunity

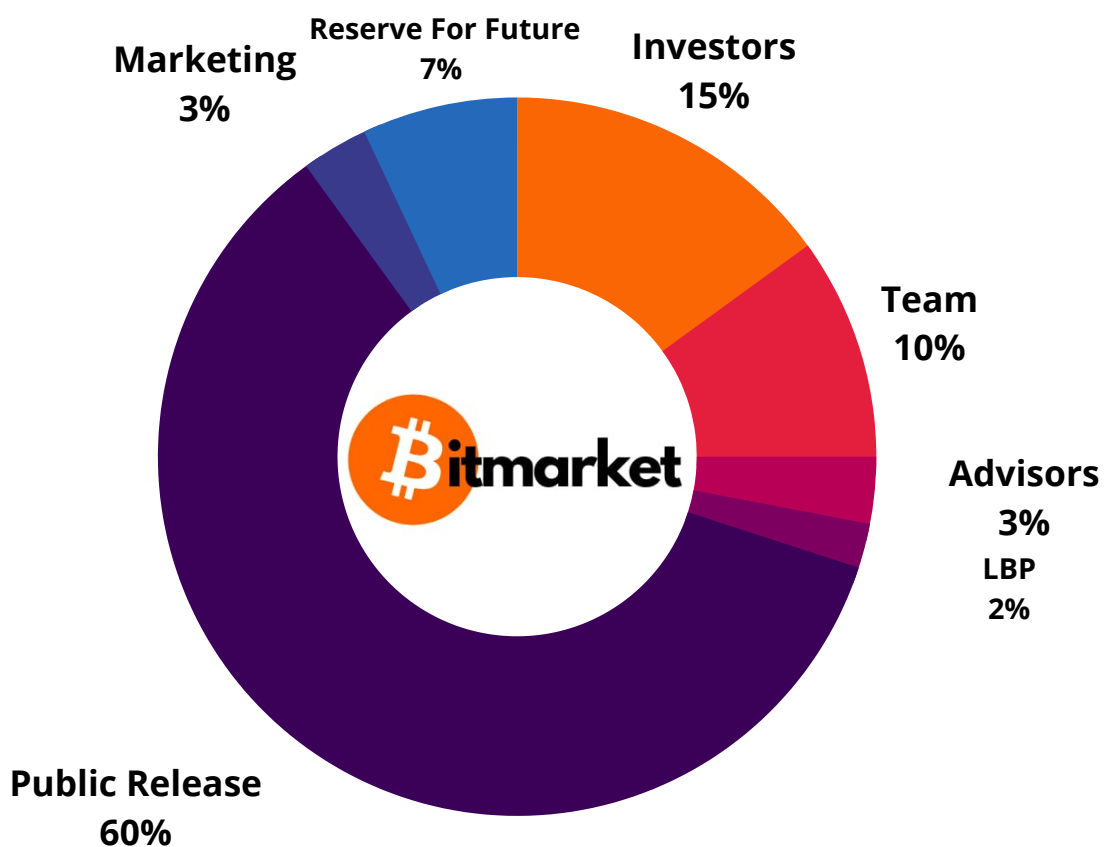

Long-term thinking is at the centre of our core values. Our focus is on building opportunities and innovating possibilities across our investor community. Thinking along the paths of consistency and making better investment products better highlight our commitment to excellence.

Security

Safety, security, and trustworthiness are our top priorities. The many benefits that blockchain and smart contracts bring make it harder to go back to solutions that often failed. We thrive on the cutting-edge of secured technology solutions.

ROAD MAP

Phase 1

- Bitmarket created on BSC
BEP 20
- Website launch
- Marketing
- Presale countdown

Phase 3

- Available to trade on
Pancakeswap and Uniswap
- Beta testing of Bitmarket
Platform
- launch of Exchange
- Launch of Gaming Platform

Phase 5

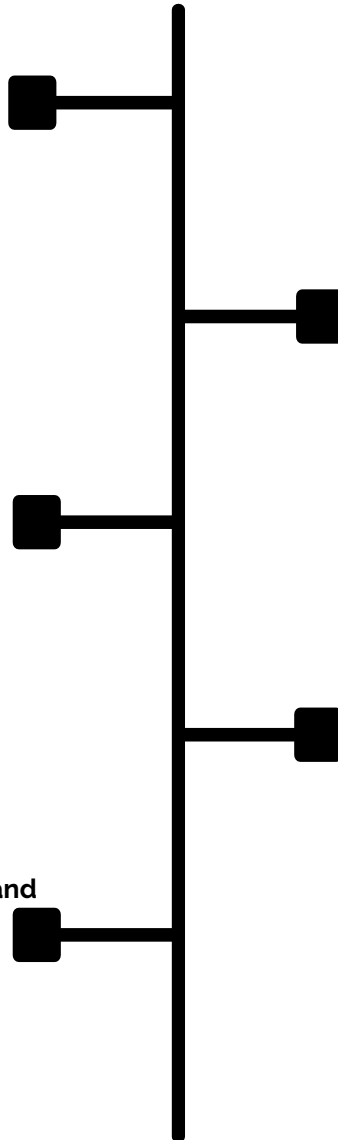

- Bitmarket launch for Android and
iOS
- NFT Marketplace launched
- Addition of more Games

Phase 2

- Presale begins
- Coingecko listing
- Coinmarketcap listing
- Full scale marketing
- Bridging with Ethereum

Phase 4

- Audit
- Swaping Platform
- Lending Platform available
- Staking becomes available
